Product name:	Product code:
Seed Germinator Cabinet with Humidity Control	CMI-NP-0061

Description

A seed germinator with temperature and humidity control and fluorescent lighting, used for seed germination tests and seed quality testing in seed testing laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Germination trays
- Shelves

The chamber maintains temperature at 20 to 30 deg C with relative humidity near 90 percent. It follows seed testing practice for germination percentage tests.

Features
