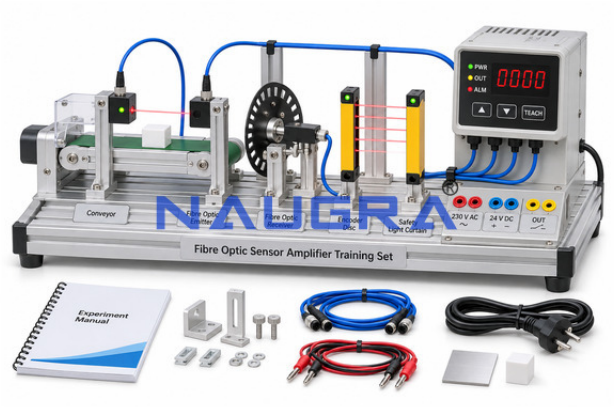
Product name:	Product code:
Fibre Optic Sensor Amplifier Training Set	CMI-NP-1765



Description

Fibre Optic Sensor Amplifier Training Set is a trainer featuring fibre optic sensor heads with amplifier for small object detection.

Technical specification

Base	Aluminium profile with T-slots

Standard Accessories

- Sensor mounting kit
- Connecting cables
- Experiment manual

The Fibre Optic Sensor Amplifier Training Set is a trainer featuring fibre optic sensor heads with amplifier for small object detection. It is designed for learning the installation, alignment and application of optical sensors in automated mechatronic systems.

Features

- Aluminium profile base plate with T-slots
- Includes wiring tasks with safety plugs
- Industrial-grade optical sensors on adjustable mounts
- PLC compatible 24 V DC PNP or NPN outputs

Technical Specifications

Fibre type	Plastic, 2 m
Amplifier	Digital display, teach mode
Min object	0.5 mm
Supply	230 V AC, 50 Hz, single phase
Sensor supply	24 V DC
