Product name:	Product code:
Drawer Type PCB Exposure Machine	CMI-NP-1796

Description

Drawer Type PCB Exposure Machine is a UV exposure machine with a front sliding drawer for easy loading of PCB panels.

Technical specification

Standard Accessories

- Spare UV tube
- Pressure frame
- Mains cord

The Drawer Type PCB Exposure Machine is a UV exposure machine with a front sliding drawer for easy loading of PCB panels. It is designed for exposing photosensitive PCB laminates to UV light when making prototype printed circuit boards.

Features

- Vacuum or pressure frame keeps film in contact
- Safety interlock on lid opening
- Compact and suitable for lab and workshop use
- Even UV exposure across the full board area

Technical Specifications

Drawer size	A4
UV LED	Array, 395 nm
Timer	Digital, 1 - 999 s
Supply	230 V AC, 50 Hz, single phase
UV source	UV-A tubes, 365 - 400 nm
Construction	Powder-coated MS with acrylic window
