Product name:	Product code:
PCB Bench-top Metallization Station with Fume Hood	CMI-NP-1825

Description

PCB Bench-top Metallization Station with Fume Hood is a compact plating station enclosed by a fume extraction hood for lab safety.

Technical specification

Heater	PTFE or titanium, with controller

Standard Accessories

- Anodes
- Racks
- Chemical kit

The PCB Bench-top Metallization Station with Fume Hood is a compact plating station enclosed by a fume extraction hood for lab safety. It is designed for through-hole plating and chemical metallization of double sided and multilayer PCBs in a lab.

Features

- Corrosion-resistant PP or PVC construction
- Digital temperature and timer controls
- Fume extraction connection
- Complete small-scale hole plating process

Technical Specifications

Hood	PP, 600 mm
Fan	Extraction 250 m3/h
Tanks	4 nos
Supply	230 V AC, 50 Hz, single phase
Tank material	Polypropylene
