Product name:	Product code:
Two Axis Pneumatic Manipulator Training Set	CMI-NP-1872

Description

Two Axis Pneumatic Manipulator Training Set is a simple two-axis manipulator for basic electro-pneumatic sequencing.

Technical specification

- Pneumatic tubes
- Valve set
- Experiment manual

The Two Axis Pneumatic Manipulator Training Set is a simple two-axis manipulator for basic electro-pneumatic sequencing. It is designed for training in pneumatic manipulator operation and PLC control for pick and place handling.
