Product name:	Product code:
Ashing Muffle Furnace with Exhaust Chimney	CMI-NP-0155

Description

A muffle furnace with exhaust chimney and air inlet for ashing organic samples, with easy removal of smoke and vapours during food, feed and coal ash analysis.

Technical specification

Standard Accessories

- Porcelain crucibles (4 nos.)

The chimney carries off fumes from burning samples. Large vent control gives enough air for complete ashing.

Features

- Exhaust chimney and air vent
- Digital temperature controller
- Heavy duty insulation
- Large capacity chamber
