NAUGRA®

Product name:	Product code:
Pneumatic Actuator Cutaway Model Set	CMI-NP-1876

Description

Set of sectioned pneumatic components including cylinders, valves and an FRL unit, used to show the internal construction and working of pneumatic actuators and control valves.

Technical specification

Size	800 x 600 mm
Operation	Manual, no air needed

Standard Accessories

- Component chart
- Instruction manual

The Pneumatic Actuator Cutaway Model Set lets students see inside common pneumatic parts. Each component is cut open and mounted so the piston, seals, spool and ports can be identified and explained.
