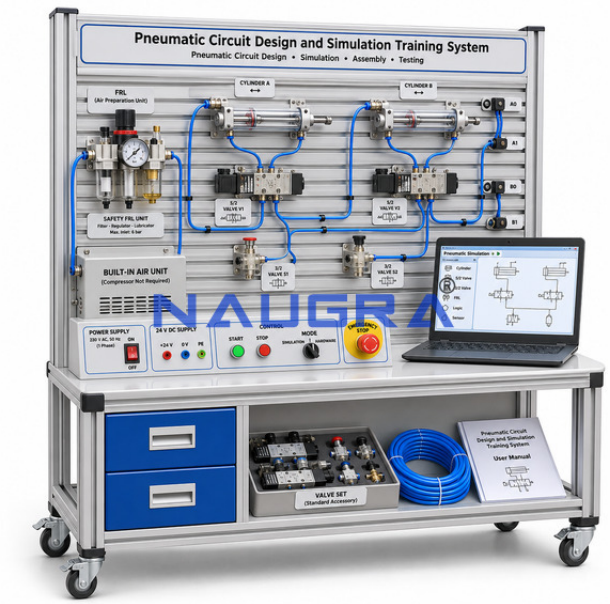
NAUGRA®

Product name:	Product code:
Pneumatic Circuit Design and Simulation Training System	CMI-NP-1877



Description

Pneumatic Circuit Design and Simulation Training System is a trainer with simulation software to design circuits before assembling them.

Technical specification

Fittings	Push-in, 6 mm tube

Standard Accessories

- Tubes
- Valve set
- Manual

The Pneumatic Circuit Design and Simulation Training System is a trainer with simulation software to design circuits before assembling them. It is designed for learning pneumatic and electro-pneumatic circuit design, assembly and troubleshooting.

Features

- Transparent cylinders and valves for viewing
- Compressor not required with built-in air unit
- Includes safety FRL unit
- Quick-fit components on a profile plate

Technical Specifications

Software	Pneumatic simulation
Components	50 pieces
Display	PC
Air supply	6 bar max
Supply	230 V AC, 50 Hz, single phase
