Product name:	Product code:
Vacuum Desiccator Cabinet Acrylic	CMI-NP-0171

Description

A vacuum desiccator cabinet with clear acrylic doors and shelves for storing moisture sensitive samples, powders and reagents under vacuum.

Technical specification

Standard Accessories

- Vacuum gauge
- Perforated shelves

Air is pumped out of the cabinet and desiccant keeps the interior dry. It protects hygroscopic material from humidity.

Features

- Transparent acrylic body
- Vacuum valve and gauge
- Adjustable shelves
- Gasket sealed door
