| Pipette Draining and Drying Rack Stand | CMI-NP-0188 |

## Description

A vertical draining rack stand for storing and drying washed pipettes in an upright position, used in chemical and clinical laboratories.

## Technical specification

**Standard Accessories**

- Drip tray

Pipettes stand in holes and drain by gravity. The rack keeps tips off the bench and prevents damage.

**Features**

- Holds up to 60 pipettes
- Polypropylene construction
- Drip tray
- Wall or bench use
