NAUGRA®

Product name:	Product code:
Shaft Vibration and Misalignment Analysis Device	CMI-NP-1901

Description

Shaft Vibration and Misalignment Analysis Device is a rig to measure vibration caused by shaft misalignment and unbalance.

Technical specification

Guard	Transparent polycarbonate

Standard Accessories

- Dial gauges
- Spanner set
- Shims set

The Shaft Vibration and Misalignment Analysis Device is a rig to measure vibration caused by shaft misalignment and unbalance. It is designed for practical training in shaft coupling, alignment, bearings and power transmission for mechanical maintenance.

Features

- Rugged cast iron and steel parts
- Safe guarded rotating parts
- Portable base with adjustable motor and driven shafts
- Realistic coupling and alignment tasks

Technical Specifications

Sensor	Accelerometer
Display	Digital
Speed	VFD controlled
Motor	0.37 kW, 1440 rpm, 230 V
Base	MS plate with T-slots
