Product name:	Product code:
End Over End Rotator Mixer	CMI-NP-0207

Description

An end over end rotator that turns tubes and bottles vertically for gentle mixing of samples, used in extraction, binding assays and biological suspension work.

Technical specification

Standard Accessories

- Tube clips

A rotating disc with clips holds tubes and flips them continuously. It is suited to mixing viscous or sedimenting samples.

Features

- Vertical rotation
- Variable speed
- Interchangeable tube clips
- Timer
