NAUGRA®

Product name:	Product code:
Microcontroller Sensor Interface Trainer	CMI-NP-1919

Description

Microcontroller Sensor Interface Trainer is a trainer with temperature, light, ultrasonic and gas sensors.

Technical specification

- USB cable
- Jumper wires
- Software CD

The Microcontroller Sensor Interface Trainer is a trainer with temperature, light, ultrasonic and gas sensors. It is designed for learning microcontroller programming, interfacing and embedded systems on a portable board.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
Email us at: export@civilmechanicalindia.com

- On board programmer via USB
- LCD, LED, switches and display interfaces
- Expansion headers for sensors
- Sample programs in C and assembly

Technical Specifications

Sensors	6 types
ADC	10 bit
Display	LCD
Supply	230 V AC adaptor, 5 V DC
Interface	USB
Display	16x2 LCD

Standard Accessories
