Product name:	Product code:
Laboratory Tray Dryer 12 Tray	CMI-NP-0229

Description

A compact twelve tray hot air dryer for small batch drying of pharmaceutical granules, food samples and chemicals. Used in college labs for drying studies and moisture removal.

Technical specification

Material	SS 304 chamber
Timer	Up to 99 h
Supply	230 V AC 50 Hz

Standard Accessories

- Set of SS trays

A fan circulates heated air over the trays while a digital controller keeps the set temperature. The smaller size suits teaching labs and pilot work.
