NAUGRA®

Product name:	Product code:
Laboratory Pan Mixer	CMI-NP-0256

Description

A pan type concrete mixer with rotating paddles for thorough mixing of concrete, mortar and cement samples in the lab. Used for preparing trial mixes and test specimens.

Technical specification

Construction	MS with wear liners
Supply	415 V AC 3 phase 50 Hz
Weight	Approx. 250 kg

Standard Accessories

- Spare blade set
- Scraper

A fixed or rotating pan with blades gives uniform mixing, even for stiff mixes. It is used for mix design trials and casting cubes and beams.
