Product name:	Product code:
Ward Leonard Speed Control Set	CMI-NP-0287

Description

A motor generator set that varies generator field to control motor speed smoothly. Used in drives labs. Features include wide speed range, motor generator set and field controls.

Technical specification

Rheostats	Field
Supply	415 V AC
Experiments	Speed control

Standard Accessories

- Panel
- Manual

The generator field is varied to change the motor armature voltage. Key specifications include motor of 3 phase 5 HP and generator of 3 kW DC.
