Product name:	Product code:
Measuring Cylinder Graduated	CMI-NP-0296

Description

A tall glass cylinder with a hexagonal base and printed scale for measuring liquid volumes. Used in chemistry and general labs. Features include borosilicate glass, hexagonal base and spout.

Technical specification

Tolerance	+/- 0.5 ml at 100 ml
Standard	ISO 6706

Standard Accessories

- Pack of various sizes
- Brush

The cylinder is made from borosilicate glass with a spout for pouring. The blue graduation is easy to read.

Features

- Borosilicate glass
- Hexagonal base
- Spout
- Blue graduations
- Class B tolerance
