Product name:	Product code:
Volumetric Flask Class A	CMI-NP-0297

Description

A borosilicate glass flask with long narrow neck and a graduation mark used to prepare standard solutions of an exact volume. Used in analytical chemistry labs.

Technical specification

Stopper	Glass or PP
Neck	Long narrow
Standard	ISO 1042

Standard Accessories

- Stopper
- Brush

The flask has a ground glass stopper and a single mark. It is calibrated to contain the stated volume at 20 deg C and meets Class A tolerance.

Features

- Borosilicate glass 3.3
- Class A accuracy
- Ground glass stopper
- Clear graduation mark
- Flat base

Technical Specifications

Capacity	100 ml, 250 ml and 500 ml
Class	A
Calibration	In at 20 deg C
Tolerance	+/- 0.10 ml at 100 ml
Glass	Borosilicate 3.3
