NAUGRA®

Product name:	Product code:
Digital Electronics Trainer	CMI-NP-0312

Description

A trainer for logic gates, flip flops and counters. Used in polytechnic labs. Features include logic gates, flip flops and counters.

Technical specification

Supply input	230 V AC
Experiments	20 or more

Standard Accessories

- Cords
- Manual

It has switches, LEDs and ICs on a board. Key specifications include logic of TTL and supply of 5 V.

Features

- Logic gates
- Flip flops
- Counters
- LED indicators
- Built in supply
