Product name:	Product code:
Auto Mould Making Machine	CMI-NP-0383

Description

A machine that forms sand moulds automatically for foundry practice. Used in foundry labs. Features include automatic, press and sand.

Technical specification

Weight	Approx. 500 kg
Control	Pneumatic

Standard Accessories

- Box

The sand is pressed into the mould box. Key specifications include box of 300 x 300 mm and press of Pneumatic.

Features

- Automatic
- Lead
- Sand
- Box
- Safe
