NAUGRA®

Product name:	Product code:
Half Bag Concrete Mixer With Electric Motor	CMI-NP-0442

Description

Half bag drum mixer powered by a single phase electric motor through a V belt and gear reduction. Used in college workshops for casting cubes, beams and cylinders with consistent mixing.

Technical specification

Discharge	Tilting by hand wheel
Mounting	Frame with two wheels
Weight approx.	260 kg

Standard Accessories

- Operating manual
- Set of basic tools

Half Bag Concrete Mixer With Electric Motor is built for engineering colleges, polytechnics, ITIs and technical training workshops. Half bag drum mixer powered by a single phase electric motor through a V belt and gear reduction.

Features

- Single phase motor drive
- Enclosed ring gear and pinion
- Smooth tilting discharge
- Low noise belt drive
- Easy to clean drum

Technical Specifications

Batch capacity (dry)	140 L
Output per batch	100 L
Motor	2 HP, 230 V AC, 50 Hz, single phase
Drum speed	22 rpm
Drum thickness	3 mm MS sheet
