NAUGRA®

Product name:	Product code:
Half Bag Reversible Drum Concrete Mixer	CMI-NP-0444

Description

Reversible drum mixer in which the drum rotates one way for mixing and the opposite way for discharge. Used to prepare uniform trial mixes for strength tests in concrete testing laboratories.

Technical specification

Control	Forward-reverse switch
Frame	Fabricated steel channel
Weight approx.	300 kg

Standard Accessories

- Operating manual
- Set of basic tools

Half Bag Reversible Drum Concrete Mixer is built for engineering colleges, polytechnics, ITIs and technical training workshops. Reversible drum mixer in which the drum rotates one way for mixing and the opposite way for discharge.
