Product name:	Product code:
Laboratory Tilting Drum Concrete Mixer 50 Litre	CMI-NP-0447

Description

Small tilting drum concrete mixer of 50 litre output for laboratory trial mixes. Used by students to learn batching, mixing and discharge of concrete for strength tests.

Technical specification

Tilting	Hand wheel
Stand	Fabricated steel with floor mounting
Weight approx.	110 kg

Standard Accessories

- Operating manual
- Set of basic tools

Laboratory Tilting Drum Concrete Mixer 50 Litre is built for engineering colleges, polytechnics, ITIs and technical training workshops. Small tilting drum concrete mixer of 50 litre output for laboratory trial mixes.
