Product name:	Product code:
Mortar Mixer For Cement Testing	CMI-NP-0448

Description

Bench top planetary mortar mixer with stainless steel bowl and paddle for standard cement mortar preparation. Used in cement laboratories to prepare specimens for compressive strength tests.

Technical specification

Timer	Digital 0-99 min
Mixing action	Planetary
Weight approx.	30 kg

Standard Accessories

- Operating manual
- Set of basic tools

Mortar Mixer For Cement Testing is built for engineering colleges, polytechnics, ITIs and technical training workshops. Bench top planetary mortar mixer with stainless steel bowl and paddle for standard cement mortar preparation.

Features

- Two speed planetary action
- Stainless steel bowl and paddle
- Digital timer
- Easy bowl clamp release
- Bench top design

Technical Specifications

Bowl capacity	5 L
Motor	0.25 HP, 230 V AC, 50 Hz
Paddle speeds	140 rpm and 285 rpm
Bowl material	Stainless steel
Paddle material	Stainless steel
