Product name:	Product code:
Chain Saw Machine For Stone And Concrete Cutting	CMI-NP-0477

Description

Chain saw with diamond segment chain for cutting soft stone, bricks and aerated concrete blocks. Used in civil labs to size blocks and test specimens.

Technical specification

Cut depth	250 mm
Weight approx.	7 kg
Handle	Dual with guard

Standard Accessories

- Operating manual
- Set of basic tools

Chain Saw Machine For Stone And Concrete Cutting is built for engineering colleges, polytechnics, ITIs and technical training workshops. Chain saw with diamond segment chain for cutting soft stone, bricks and aerated concrete blocks.

Features

- Diamond segment chain
- Water cooled cutting
- Dust suppression
- Sturdy two hand grip
- Overload protection

Technical Specifications

Power	2400 W, 230 V AC, 50 Hz
Bar length	350 mm
Chain	Diamond segment
Water feed	Hose connection
Chain speed	8 m/s
