| --- | --- |
| Hand Operated Concrete Block Making Machine | CMI-NP-0493 |

## Description

Manual block making machine with a mould and lever compaction for hollow and solid concrete blocks. Used for practical training in block production. Main ratings: block size 400 x 200 x 200 mm, output 100 blocks per hour, compaction Lever press.

## Technical specification

| | |
|---|---|
| Power | Manual |
| Frame | Fabricated steel |
| Weight approx. | 120 kg |
| Operators | 2 |

**Standard Accessories**

- Operating manual
- Set of basic tools

Hand Operated Concrete Block Making Machine is built for engineering colleges, polytechnics, ITIs and technical training workshops. Manual block making machine with a mould and lever compaction for hollow and solid concrete blocks.
