NAUGRA®

Product name:	Product code:
Hand Operated Conduit Pipe Bending Machine	CMI-NP-0498

Description

Lever operated bender for forming bends in electrical conduit pipes. Used in electrical workshops for training in conduit wiring work. Main ratings: pipe size 20 to 32 mm, bend angle 0 to 90 deg, operation Hand lever.

Technical specification

Handle length	900 mm
Weight approx.	18 kg
Pipe material	GI or PVC

Standard Accessories

- Operating manual
- Set of basic tools

Hand Operated Conduit Pipe Bending Machine is built for engineering colleges, polytechnics, ITIs and technical training workshops. Lever operated bender for forming bends in electrical conduit pipes.
