Product name:	Product code:
Single Phase DC Rectifier 12 V 20 A	CMI-NP-0508

Description

Single phase transformer rectifier that converts mains AC to smooth DC for plating and battery charging. Used in electrochemical labs. Main ratings: input 230 V AC, 50 Hz, output 0-12 V DC, current 20 A.

Technical specification

Meters	Analog voltmeter and ammeter
Control	Variac
Weight approx.	35 kg

Standard Accessories

- Operating manual
- Set of basic tools

Single Phase DC Rectifier 12 V 20 A is built for engineering colleges, polytechnics, ITIs and technical training workshops. Single phase transformer rectifier that converts mains AC to smooth DC for plating and battery charging.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
Email us at: export@civilmechanicalindia.com

- Smooth DC output
- Voltage control knob
- Two meters
- Overload protection
- Rugged cabinet

Technical Specifications

Input	230 V AC, 50 Hz
Output	0-12 V DC
Current	20 A
Rectifier	Silicon diode bridge
Cooling	Air
