Product name:	Product code:
Floor Type Drilling Cum Tapping Machine	CMI-NP-0533

Description

Larger floor model with greater capacity for steel tapping. Used for production tapping in workshops. Main ratings: drill capacity 20 mm, tap capacity M16, motor 1 HP, 415 V AC.

Technical specification

Column	80 mm
Reversing	Foot switch
Weight approx.	180 kg

Standard Accessories

- Operating manual
- Set of basic tools

Floor Type Drilling Cum Tapping Machine is built for engineering colleges, polytechnics, ITIs and technical training workshops. Larger floor model with greater capacity for steel tapping.
