Product name:	Product code:
Industrial Dust Collector With Pulse Cleaning	CMI-NP-0543

Description

Cartridge dust collector that cleans filters with pulses of air. Used in training workshops with heavy dust. Main ratings: airflow 3000 m3/h, motor 5 HP, 415 V AC, inlet 200 mm.

Technical specification

Pressure	Compressed air 6 bar
Hopper	80 L
Weight approx.	250 kg

Standard Accessories

- Operating manual
- Set of basic tools

Industrial Dust Collector With Pulse Cleaning is built for engineering colleges, polytechnics, ITIs and technical training workshops. Cartridge dust collector that cleans filters with pulses of air.

Features

- Pulse jet cleaning
- High efficiency
- Large airflow
- Hopper
- Strong casing

Technical Specifications

Airflow	3000 m3/h
Motor	5 HP, 415 V AC
Inlet	200 mm
Filter	Cartridge pulse jet
Efficiency	99.5%
