NAUGRA®

Product name:	Product code:
Reciprocating Table Surface Grinding Machine	CMI-NP-0580

Description

Reciprocating table surface grinder for producing flat and parallel surfaces on steel parts. Used to teach precision grinding with a magnetic chuck. Main ratings: table size 450 x 150 mm, wheel size 175 x 20 mm, motor 1 HP, 415 V AC.

Technical specification

Feed	Hand
Accuracy	0.01 mm
Weight approx.	450 kg

Standard Accessories

- Operating manual
- Set of basic tools

Reciprocating Table Surface Grinding Machine is built for engineering colleges, polytechnics, ITIs and technical training workshops. Reciprocating table surface grinder for producing flat and parallel surfaces on steel parts.
