NAUGRA®

Product name:	Product code:
Hydraulic Thread Rolling Machine 6 Tonne	CMI-NP-0640

Description

Hydraulic machine that forms external threads on bolts and rods by rolling between flat or round dies. Used in production training to show cold forming of threads without cutting.

Technical specification

Cycle	Semi automatic
Oil tank	40 L
Weight approx.	900 kg

Standard Accessories

- Operating manual
- Set of basic tools

Hydraulic Thread Rolling Machine 6 Tonne is built for engineering colleges, polytechnics, ITIs and technical training workshops. Hydraulic machine that forms external threads on bolts and rods by rolling between flat or round dies.

Features

NAUGRA®

- Automatic stop on job
- Hydraulic radial feed
- Round die set
- Semi automatic cycle
- Rigid frame

Technical Specifications

Capacity	M6 to M12
Roll force	6 tonne
Motor	3 HP, 415 V AC
Die type	Round, two roll
Blank length	Up to 150 mm
