Product name:	Product code:
Magnetic Drill Stand with Swivel Base	CMI-NP-0664

Description

Magnetic Drill Stand with Swivel Base is a magnetic drill stand with a swivelling base that allows drilling on angled and inclined steel surfaces, designed for holding hand drills precisely for angled hole drilling on steel members.

Technical specification

Material	Cast iron and steel

The Magnetic Drill Stand with Swivel Base is a magnetic drill stand with a swivelling base that allows drilling on angled and inclined steel surfaces. It is built for holding hand drills precisely for angled hole drilling on steel members.

Features

- Swivel base with angle scale
- Switchable permanent magnet base
- Rack and pinion feed with quick return
- Fits standard 43 mm drill collar

Technical Specifications

Magnet holding force	approx. 8000 N
Base size	approx. 180 x 100 mm
Drill collar diameter	43 mm
Stroke	150 mm
Swivel range	0 to 45 deg
Column height	approx. 400 mm
