Product name:	Product code:
Portable Magnetic Drilling Machine	CMI-NP-0665

Description

Portable Magnetic Drilling Machine is a portable electromagnetic-base drilling machine that clamps to steel sections and drills holes up to 32 mm, designed for drilling structural steel, beams and plates on site or in the workshop.

Technical specification

Weight	approx. 13 kg

The Portable Magnetic Drilling Machine is a portable electromagnetic-base drilling machine that clamps to steel sections and drills holes up to 32 mm. It is built for drilling structural steel, beams and plates on site or in the workshop.

Features

- Powerful electromagnetic base with strong holding force
- Variable feed by rack and pinion handle
- Overload protection and safety switch
- Accepts annular cutters and twist drills

Technical Specifications

Drilling capacity (annular cutter)	up to 32 mm dia
Twist drill capacity	up to 16 mm
Motor	1100 W
No-load speed	450 rpm
Magnet holding force	approx. 12000 N
Power	230 V AC, 50 Hz, single phase
