NAUGRA®

Product name:	Product code:
CNC Press Brake Training Machine	CMI-NP-0672

Description

CNC Press Brake Training Machine is a small CNC press brake with a programmable back gauge and touch controller, designed for teaching programmed sheet metal bending and CNC press brake operation.

Technical specification

Weight	approx. 3500 kg

The CNC Press Brake Training Machine is a small CNC press brake with a programmable back gauge and touch controller. It is built for teaching programmed sheet metal bending and CNC press brake operation.

Features

- Programmable back gauge
- Touchscreen controller
- Hydraulic synchronised cylinders
- Safety light curtain

Technical Specifications

Capacity	63 tonne
Bending length	2500 mm
Back gauge travel	500 mm
Axes	Y1, Y2 and X
Motor	7.5 kW, 415 V, 3 phase
Programs	Up to 40
