NAUGRA®

Product name:	Product code:
Manual Press Brake Bending Machine	CMI-NP-0674

Description

Manual Press Brake Bending Machine is a hand-operated bench press brake with a bending beam and clamping bar, designed for bending thin sheet metal to precise angles without power.

Technical specification

Weight	approx. 120 kg

The Manual Press Brake Bending Machine is a hand-operated bench press brake with a bending beam and clamping bar. It is built for bending thin sheet metal to precise angles without power.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Hand lever operation
- Replaceable bending dies
- Angle scale up to 90 deg
- Solid steel construction

Technical Specifications

Bending length	1000 mm
Sheet capacity	up to 1.5 mm mild steel
Bending angle	0 to 135 deg
Clamping	Cam lever
Construction	Welded steel
Finish	Powder coated
