NAUGRA®

Product name:	Product code:
TIG Welding Machine AC DC	CMI-NP-0678

Description

TIG Welding Machine AC DC is a TIG welding machine with AC and DC output for welding aluminium and steel, designed for tungsten inert gas welding practice on aluminium, stainless steel and mild steel.

Technical specification

Weight	approx. 40 kg

The TIG Welding Machine AC DC is a TIG welding machine with AC and DC output for welding aluminium and steel. It is built for tungsten inert gas welding practice on aluminium, stainless steel and mild steel.

Features

- AC/DC selectable output
- High frequency arc start
- Pulse mode
- Foot pedal compatibility

Technical Specifications

Input	415 V AC, 3 phase, 50 Hz
Current	10 to 315 A
Duty cycle	60 percent
AC frequency	50 to 200 Hz
Gas pre/post flow	Adjustable
Cooling	Air or water
