Product name:	Product code:
Welding Fume Extraction Unit	CMI-NP-0679

Description

Welding Fume Extraction Unit is a mobile fume extractor with flexible arm and filter for welding stations, designed for removing welding fumes and keeping the workshop air clean during MIG and TIG welding.

Technical specification

Weight	approx. 45 kg

The Welding Fume Extraction Unit is a mobile fume extractor with flexible arm and filter for welding stations. It is built for removing welding fumes and keeping the workshop air clean during MIG and TIG welding.

Features

- Flexible extraction arm
- Replaceable filter cartridge
- Mobile on castors
- Low noise blower

Technical Specifications

Airflow	1000 m3/h
Arm length	2 m
Filter efficiency	99 percent at 0.3 micron
Motor	0.75 kW
Input	230 V AC, 50 Hz
Noise	below 70 dB
