Product name:	Product code:
Portable Arc Welding Machine 200 A	CMI-NP-0684

Description

Portable Arc Welding Machine 200 A is a portable single-phase arc welder suitable for stick electrodes of 2.0 to 3.15 mm, designed for basic arc welding practice and small fabrication jobs.

Technical specification

Weight	approx. 9 kg

The Portable Arc Welding Machine 200 A is a portable single-phase arc welder suitable for stick electrodes of 2.0 to 3.15 mm. It is built for basic arc welding practice and small fabrication jobs.

Features

- Compact lightweight body
- Adjustable current dial
- Overheat protection
- Electrode holder and earth clamp included

Technical Specifications

Input	230 V AC, 50 Hz
Output current	40 to 200 A
Electrode size	2.0 to 3.15 mm
Duty cycle	30 percent
Cooling	Fan
Insulation class	F
