Product name:	Product code:
Vertical Boring Machine for Metal	CMI-NP-0700

Description

Vertical Boring Machine for Metal is a column type vertical boring unit for enlarging holes in metal workpieces, designed for precision boring of cylinder and bushing bores in training workshops.

Technical specification

Weight	approx. 350 kg

The Vertical Boring Machine for Metal is a column type vertical boring unit for enlarging holes in metal workpieces. It is built for precision boring of cylinder and bushing bores in training workshops.

Features

- Rigid column
- Fine feed handwheel
- T slot table
- Adjustable depth stop

Technical Specifications

Boring dia	up to 80 mm
Spindle travel	120 mm
Table size	400 x 300 mm
Motor	1.5 kW
Input	415 V AC, 3 phase, 50 Hz
Speed	120 to 1200 rpm
