NAUGRA®

Product name:	Product code:
Gas Flow Meter Regulator	CMI-NP-0728

Description

Gas Flow Meter Regulator is a flow meter regulator for MIG and TIG, designed for setting shielding gas flow. Key features include flow tube and knob.

Technical specification

The Gas Flow Meter Regulator is a flow meter regulator for MIG and TIG. It is built for setting shielding gas flow.

Features

- Flow tube
- Knob
- Brass body
- Gauge

Technical Specifications

Flow	0 to 30 l/min
Inlet	200 bar
Gas	Argon/CO2
Connection	W21.8
Accuracy	+/- 5 percent
Body	Brass
Weight	approx. 0.7 kg
