Product name:	Product code:
Four Roll Plate Bending Machine	CMI-NP-0733

Description

Four Roll Plate Bending Machine is a four roll plate bending machine with hydraulic side rolls, designed for pre-bending and rolling plate with minimal flat ends.

Technical specification

Weight	approx. 4000 kg

The Four Roll Plate Bending Machine is a four roll plate bending machine with hydraulic side rolls. It is built for pre-bending and rolling plate with minimal flat ends.

Features

- Separate pre-bending function
- Hydraulic side rolls
- Digital position readout
- Hardened alloy steel rolls

Technical Specifications

Plate width	2000 mm
Plate thickness	up to 10 mm
Top roll diameter	220 mm
Minimum rolled diameter	350 mm
Motor	7.5 kW
Input	415 V AC, 3 phase, 50 Hz
