Product name:	Product code:
Stud Welding Training Station	CMI-NP-0793

Description

Stud Welding Training Station is a demonstration station for stud welding, designed for teaching stud welding. Key features include guard and table. It suits technical institutes and workshops.

Technical specification

The Stud Welding Training Station is a demonstration station for stud welding. It is built for teaching stud welding.

Features

- Guard
- Table
- Meter
- Gun

Technical Specifications

Stud diameter	up to 12 mm
Input	415 V AC, 3 phase, 50 Hz
Table	600 x 500 mm
Current	800 A
Timer	Digital
Guard	Acrylic
Weight	approx. 120 kg
