NAUGRA®

Product name:	Product code:
Lead Screw Bolt Threading Machine	CMI-NP-0835

Description

Bench bolt threading machine with a lead screw drive and quick-opening die head, used for cutting accurate external threads on bolts, studs and rods in workshops and training institutes.

Technical specification

Coolant	Built-in pump and tank
Approx. size	1100 x 450 x 1100 mm

Standard Accessories

- One set of chasers
- Vice jaws
- Coolant tray

The Lead Screw Bolt Threading Machine cuts external threads on bolts, studs and round bars using a quick-opening die head. A lead screw keeps the thread pitch accurate, and the vice carriage holds the job firmly while threading.
