Product name:	Product code:
Servo Tapping Machine Digital	CMI-NP-0847

Description

Servo Tapping Machine Digital is a servo driven tapping machine with digital depth control, designed for precision tapping in blind holes with programmable depth. Key features include servo drive with torque control and digital control panel.

Technical specification

Weight	approx. 30 kg

The Servo Tapping Machine Digital is a servo driven tapping machine with digital depth control. It is built for precision tapping in blind holes with programmable depth.

Features

NAUGRA®

- Servo drive with torque control
- Digital control panel
- Programmable depth
- Balanced arm

Technical Specifications

Tap capacity	M2 to M16
Servo motor	0.4 kW
Input	230 V AC, 50 Hz, single phase
Speed range	50 to 1000 rpm
Depth	Programmable
Display	Digital
