NAUGRA®

Product name:	Product code:
V Belt Radial Drill Machine 50 mm Capacity	CMI-NP-0904

Description

A V belt driven radial drill with 50 mm drilling capacity and 1250 mm arm reach, used in fabrication and machine shops for drilling heavy workpieces.

Technical specification

Spindle feeds	0.05 to 0.8 mm/rev
Main motor	5 HP (3.7 kW), 415 V AC 3 phase
Base plate	Cast iron T slotted
Painted	Industrial grey-green

Standard Accessories

- Drill sleeve
- Drift key

V Belt Radial Drill Machine 50 mm Capacity drills holes up to 50 mm diameter in steel and is driven through V belts and a geared head for smooth power delivery. The swinging radial arm lets large heavy jobs be drilled without repositioning.

Features

- V belt driven spindle drive
- Radial arm swings and clamps at any position
- Drill head slides along the arm
- Tapped and T slotted base plate
- Power feed with depth stop
- Overload protection on motor

Technical Specifications

Drilling capacity in steel	50 mm
Arm length / radius	1250 mm
Spindle taper	MT4
Spindle speeds	45 to 1500 rpm in 12 steps
