NAUGRA®

Product name:	Product code:
Plate Compactor with Water Sprinkler System	CMI-NP-0908

Description

A vibrating plate compactor fitted with a water tank and sprinkler bar to prevent asphalt sticking to the plate, used for compacting hot mix on roads and paving.

Technical specification

Travel speed	25 m/min
Engine	Petrol, 5.5 HP
Water tank	10 litre
Compaction depth	up to 250 mm

The integrated water tank wets the base plate during asphalt compaction. A polyurethane mat can also be fitted for paving block laying.

Features

- Integrated water tank with sprinkler
- Optional polyurethane paving mat
- Forward travel engine drive
- Anti vibration handle
- Heavy steel base plate
- Wheel kit for transport

Technical Specifications

Operating weight	120 kg
Plate size	550 x 400 mm
Centrifugal force	20 kN
Vibration frequency	80 Hz
