Product name:	Product code:
Digital Water and Admixture Weigh Batcher	CMI-NP-0922

Description

A digital water and admixture batcher with small load cell tanks used to dose water and chemical admixtures by weight for repeatable concrete mixes.

Technical specification

Valve type	Solenoid operated
Tank material	Stainless steel 304
Indicator	Digital LED
Power supply	230 V AC 50 Hz

Standard Accessories

- Hose pipe

Water and admixture are measured by weight in separate tanks and released by solenoid valves. This ensures an accurate water cement ratio in laboratory trial mixes.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Separate water and admixture tanks
- Load cell based dosing
- Digital display of weight
- Solenoid discharge valves
- Stainless steel tanks
- Wall or frame mounting

Technical Specifications

Water tank capacity	100 litre
Admixture tank capacity	10 litre
Accuracy	+/- 0.5 percent
Resolution	0.1 kg
