Product name:	Product code:
Single Hopper Aggregate Weigh Batcher 500 kg	CMI-NP-0923

Description

A single hopper weigh batcher with load cells and digital indicator used to weigh aggregates accurately before they are discharged into a concrete mixer.

Technical specification

Discharge	Pneumatic butterfly gate
Air pressure	6 bar
Indicator	Digital, 6 digit LED
Power supply	230 V AC 50 Hz

Standard Accessories

- Calibration weights set

The hopper is suspended on load cells and weight is displayed digitally. A pneumatic gate discharges the batch, giving consistent mix proportions in lab and site mixers.

Features

- Mild steel hopper with wear plates
- Three load cell weighing system
- Digital weight indicator
- Pneumatic discharge gate
- Setpoint cut off for batch weight
- Rigid angle frame stand

Technical Specifications

Capacity	500 kg
Hopper volume	0.4 cubic metre
Accuracy	+/- 0.5 percent
Resolution	0.5 kg
