Product name:	Product code:
Pneumatic Trainer on Aluminium Profile Panel	CMI-NP-1013

Description

A pneumatic trainer with cylinders, valves and fittings mounted on a T slot aluminium panel, used to teach basic pneumatic circuits and valve operation.

Technical specification

Tubing	PU 6 mm
FRL	Filter, regulator, lubricator
Panel	Aluminium, 800 x 600 mm
Experiments	15 or more
Power supply	230 V AC, 50 Hz

Components snap onto the profile panel, so students quickly build and change circuits. It covers direct and indirect cylinder control and speed regulation.

Features

- Fast assembly on profile panel
- Single and double acting cylinders
- 3/2, 5/2 and 5/3 valves
- Quick connect push in fittings
- FRL unit with gauge
- Experiment manual

Technical Specifications

Cylinders	1 single acting, 2 double acting
Valves	3/2, 5/2, 5/3 manual and pilot
Flow control	2 nos
Pressure	up to 8 bar
